NEW DELHI 2 (INDIA); }
The 5th November, 1961. }

K. MITRA,

For Registrar General, India,

NATIONAL SAVINGS

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3.57% and 4.16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income.

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000/-.

CERTIFICATES

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay Calcutta, Delhi & Madras, and Branches of The Imperial Bank of India in other places transacting treasury business.

Full particulars obtainable from District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioner, Simla.

3½%

TEN-YEAR TREASURY SAVINGS DEPOSITS

TODAY'S BEST INVESTMENT FOR SMALL SAVERS

Births and deaths from principal diseases in towns with a population of over 30,000 in India for the week ending the 13th October, 1951.

REMARKS

The figures of births and deaths shown in the statement for week ending the 13th Oct. 1951, relate to 165 towns with an estimated population of 19,897 thousands. The total number of towns is 254 and their population is 31,142 thousands. Thus 65% of the total number of towns representing 84% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 12,784 and 5,739 representing birth and death rates of 33.4 and 15.0 per thousand of population respectively.

(4) States (Parts A & C).—The data here relate to 144 towns with an estimated population of 16,952 thousands. Information about Assam, Bihar, Bombay and Orissa could not be included. The total number of towns is 219 and their population is 26,799 thousands. Thus 66% of the total number of towns representing 63% of the total population is covered. The numbers of births and deaths

recorded in these towns were 11,154 and 5,124 representing birth and death rates of 34.2 and 15.7 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 21 towns with an estimated population of 2,945 thousands. The total number of towns is 35 and their population is 4,343 thousands. Thus 60% of the total number of towns representing 68% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,630 and 615 representing birth and death rates of 28.8 and 10.9 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
